► This Investment Report summarizes activity in your Fidelity accounts for the past year. We hope you find it helpful, however, keep in mind, it is not intended for tax reporting purposes. To assist you with completing your tax returns, we mail a Tax Reporting Statement in late January. The supplemental information section of that Statement contains such items as realized gain/loss information, cost basis information, and tax-exempt income from Fidelity Funds. Your IRA summary statement and certain other tax forms, such as Form 1099-R and Form 5498, are mailed under separate cover.

ELECTRONIC FUNDS TRANSFER NOTICE

The following notice is required by the Federal Reserve Board's Regulation E and it applies to Electronic Funds Transfers ("EFT") made by consumers. However, it does not apply to all EFTs. Generally, EFTs in non-retirement accounts, excepting those made for the purchase or sale of securities, are subject to the Regulation.

Error Resolution

In the case of errors or questions about EFT transactions, call or write Fidelity using the Contact information listed below, promptly. You must also call or write Fidelity if you think your statement is wrong or if you need more information about an EFT on the statement. **Fidelity must hear from you no later than 60 days after Fidelity sent the FIRST statement on which the problem or error appeared.** You will need to:

- Tell Fidelity your name and account number.
- Describe the error or the Covered Transfer that you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.
- Tell Fidelity the dollar amount of the suspected error.

If you notify Fidelity orally, Fidelity may require that you send your complaint or question in writing within ten (10) business* days. Fidelity will tell you the results of its investigation within ten (10) business* days after Fidelity hears from you and will correct any error promptly. If Fidelity needs more time, however, it may take up to forty-five (45) days to investigate your complaint or question. If Fidelity decides to do this, it will credit your account within 10 business* days for the amount that you think is in error, so that you will have the use of the money during the time it takes Fidelity to complete its investigation. If Fidelity asks you to put your request or question in writing and it does not receive it within 10 business* days, Fidelity may not credit your account. If Fidelity decides that there was no error, Fidelity will send you a written explanation within three business days after Fidelity finishes the investigation. You may ask for copies of the documents that Fidelity used in the investigation.

Your Asset Allocation

Asset allocation is a method of diversifying your investments among asset classes (e.g., stocks, bonds, short-term instruments). We believe that you should use asset allocation principles to create a portfolio that helps meet your needs and that you should review your portfolio of investments at least once a year to help you decide if it still suits your needs.

Current Allocation To help you determine your current asset allocation, we are providing a snapshot of your Fidelity asset mix. We sorted your Fidelity holdings into four asset categories: Stocks, Bonds, Short-Term Instruments, and Non-Classified. The following table summarizes the representation of individual holdings in your asset allocation pie chart:

ASSET CATEGORY	TYPES OF INVESTMENTS
Stocks	<ul style="list-style-type: none"> • Fidelity and non-Fidelity funds that invest primarily in stocks • Individual stocks • American Depositary Receipts (ADRs)
Bonds	<ul style="list-style-type: none"> • Fidelity and non-Fidelity funds that invest primarily in bonds • Individual bonds with at least 1 year to maturity • CDs with at least 1 year to maturity
Short-Term Instruments	<ul style="list-style-type: none"> • Fidelity and non-Fidelity money market funds • Bankers Acceptances and Commercial Paper • CDs with less than 1 year until maturity • Individual bonds with less than 1 year until maturity
Non-Classified	<ul style="list-style-type: none"> • Non-Fidelity funds not classified as primarily investing in one asset class (stock, bond, or short-term). Included in this group are convertible securities funds, balanced income funds, flexible portfolio funds, and balanced funds. • Non-Fidelity funds not classified as stock, bond, or short-term at the time we generated this report • Precious metals (bullion, coins) • Options • Warrants and Rights • REITs, UITs, and Limited Partnerships

Some Fidelity mutual funds ("blended funds") invest a significant amount of their portfolios in more than one asset class. The following funds are apportioned across asset classes based on their neutral mix, which represents the way the Funds' investments will generally be allocated. This mix may vary based on the current outlook for different markets. If you own any of the following funds, as of September 30th, your assets in the fund were allocated as follows:

Fidelity Asset Manager® 20%	20% stocks, 55% bonds, 25% short-term
Fidelity Asset Manager® 50%	49% stocks, 45% bonds, 6% short-term
Fidelity Asset Manager® 70%	70% stocks, 28% bonds, 2% short-term

Fidelity Freedom Funds are managed by Strategic Advisers, Inc., a registered investment adviser and a Fidelity Investments Company. Lipper, Inc., categorizes non-Fidelity funds into their broad asset allocation categories: stock, bond, short-term and non-classified.

This is one way of classifying your Fidelity holdings; some investors may choose to use their own classifications when evaluating their asset allocation. Asset allocation percentages are rounded to the nearest whole number, and may not sum to 100%.

Features of Your Investment Report

2006 Changes In Portfolio Value and Account Summary

A summary of activity in your portfolio and in each of your accounts for 2006.

2006 Income Summary

This section may not reflect all taxable income received in your account. Certain items not included here may also be taxable to you. For example, *Net Adjustments* in the *Account Summary* section may include other taxable income. Dividend amounts reported on your account statements may not match this Report. Your statements report dividends when they are posted to your account. Unless otherwise indicated, this Report follows the IRS reporting requirements for Form 1099-DIV which require that mutual fund distributions declared in Oct, Nov or Dec and paid by Jan 31 of the following year are taxable based on the record date, not the date paid. Income generated by other types of investments is usually taxable in the year paid, not in the year declared.

Fidelity classifies all long-term capital gain distributions as "*long-term*" *cap gain* on this Report. This may not be appropriate for tax reporting purposes. Refer to your Form 1099-DIV when reporting capital gain distributions on your tax return.

Sometimes dividends, foreign taxes paid and other distributions are later reclassified or adjusted. If such changes are received by 12/31, then the *Income Summary* should reflect them. If they occur after 12/31, they will not be reflected.

Interest income paid by investments in municipal bonds, municipal bond funds, and municipal money market funds is generally "tax-exempt". Tax-exempt refers to the tax treatment at the federal level; this income may or may not be tax-exempt at the state/local level. In addition, a portion of this income may be subject to the federal alternative minimum tax. "Tax-deferred" income includes earnings on investments in tax-deferred accounts such as IRAs, which are not usually taxed until you take withdrawals. "Tax-free income" includes earnings on investments in a Roth IRA, which are not taxed at the federal level upon withdrawal provided certain requirements are met.

Contributions/Distributions Made in 2006 This is a summary of annual Traditional IRA, Roth IRA, Rollover IRA, SIMPLE-IRA, Health Savings Account, non-prototype retirement plan contributions and taxable and non-taxable retirement distributions for 2006. IRA assets converted to a Roth IRA are included in distributions. IRA recharacterizations are not reflected in this section.

Holdings as of December 31, 2006 This section reports your holdings as of December 31, 2006, as well as income earned on these holdings throughout the year. If one of your holdings produced income and you sold the holding before December 31, then the line "Total income earned on positions no longer held" appears in the Holdings section. For ease of reading, we rounded the "Percentage of Holdings" to the nearest whole number.

Cost Basis Information Estimated cost basis information reported may not reflect all adjustments necessary for tax reporting purposes. Taxpayers should verify such information against their own records when calculating reportable gain or loss resulting from sale, redemption, or exchange. Fidelity does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information taxpayers may be required to report to federal, state, and other taxing authorities. Fidelity makes no warranties with respect to, and specifically disclaims, any liability arising out of a customer's use of, or any tax position taken in reliance upon, such information. Unless otherwise specified, Fidelity determines cost basis at the time of sale based on the average cost-single category (ACSC) method for open-end mutual funds and the first-in, first-out (FIFO) method for all other securities. See your year-end tax reporting package and account statements for more details on how Fidelity estimates cost basis information and makes certain adjustments thereto. Consult your tax advisor for further information.

Cost Fidelity also provides purchase cost information for securities held within retirement accounts. Such cost information may be adjusted for certain transactions and does not reflect reinvestments of dividends or capital gains. Fidelity also reports transaction profit or loss information when securities are sold within a retirement account. Transaction profit or loss is calculated by subtracting purchase cost from sales proceeds. If you purchased shares at different times or prices, transaction profit or loss is calculated based on the first-in, first-out method.

Additional Information About Your Investment Report

Information About Mutual Funds and Their Performance Please carefully consider the fund's or insurance product's investment objectives, risks, charges and expenses before investing. For this and other information, call or write to Fidelity or visit Fidelity.com for a free prospectus. Read it carefully before you invest. The performance data featured represents past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate; therefore, you may have a gain or loss when you sell your shares. Current performance may be higher or lower than the performance data quoted. Please visit Fidelity.com/performance or call Fidelity for most recent month-end performance figures. Each fund reserves the right to terminate or modify its exchange privilege in the future. In addition to sales loads and 12b-1 fees as described in the prospectus, FBS or NFS may receive compensation of up to 0.35% of the average daily net assets of certain mutual funds in connection with your purchase of those mutual fund shares and/or the on-going maintenance of your brokerage account with respect to those shares. The compensation is paid by the mutual fund and/or its affiliate. Additional information about the source and amount of the compensation will be furnished to you upon written request.

Assets Separate from Your Securities Brokerage Account Only securities holdings in the margin portion of your brokerage account contribute toward margin and maintenance requirements. Assets maintained with Fidelity Investments Life Insurance Company and mutual fund assets held outside your brokerage account (that may be reported on your statement) are not carried by NFS and are not covered by SIPC. These assets do not contribute toward your margin and maintenance requirements. Assets held by Portfolio Advisory Services (PAS) are carried by NFS and are covered by SIPC and do not contribute toward your margin and maintenance requirements.

Customer Free Credit Balance You are entitled to your free credit balance in your brokerage account at any time, subject to open commitments in your cash accounts. Free credit balances are not segregated and may be used in NFS's business in accordance with federal securities law. There is no free credit balance arrangement in a retirement account.

Short Account Balances Fidelity maintains all securities sold short in a segregated short account. These securities are marked-to-market, and Fidelity transfers any increase or decrease from the short sale price to your margin account on a weekly basis. Fidelity represents your short account balance as the balance of your short account as of the last weekly mark-to-market, not as of the statement end date. There is no margin arrangement in retirement accounts including

non-prototype retirement accounts.

Information about Your Option Transactions Assignments of American and European-style options are allocated among customer short positions pursuant to random allocation procedure, description of which is available upon request. Short positions in American-style options are liable for assignment at any time. The writer of a European-style option is subject to exercise assignment only during the exercise period. Contact a Fidelity representative for more information.

Price Information Fidelity calculates prices for Fidelity products. All other prices shown on your report have been obtained from independent quotation vendors, whose appraisals are based either on closing prices on bid/ask quotation or on a matrix based on interest rates for similar securities; and for certain securities, prices may not be current as of the report date. We cannot guarantee the accuracy of the prices as they appear on this report. If we are unable to obtain a price, "unavailable" will appear instead of a dollar value for that security. Fidelity carries certificates of deposit (CDs) that have a maturity of one year or less from date of issue at their face value. CDs with a maturity date of more than one year from date of issue will be shown at market value based upon a matrix or model pricing method that may not represent the actual price if sold prior to maturity. The sale or redemption of any fixed income security prior to maturity may result in a substantial gain or loss, and a penalty may apply to the early withdrawal of a CD. While you may sell CDs in the secondary market subject to market conditions, the market is generally illiquid. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Securities in accounts carried by National Financial Services LLC ("NFS"), a Fidelity Investments company, are protected in accordance with the Securities Investor Protection Corporation ("SIPC") up to \$500,000 (including cash claims limited to \$100,000). For details or to request an SIPC brochure, please see www.sipc.org or call 202-371-8300. NFS has arranged for additional protection for cash and covered securities to supplement its SIPC coverage. This additional protection covers total account net equity in excess of the \$500,000/\$100,000 coverage provided by SIPC. Neither coverage protects against a decline in the market value of securities. Customer inquiries and comments may be directed to the phone number listed on your report or mailed to: Fidelity Investments, Client Services, P.O. Box 770001, Cincinnati, OH 45277-0045.
