**ELECTRONIC FUNDS TRANSFER NOTICE**

The following notice is required by the Federal Reserve Board's Regulation E and it applies to Electronic Funds Transfers ("EFT") made by consumers. However, it does not apply to all EFTs. Generally, EFTs in non-retirement accounts, excepting those made for the purchase or sale of securities, are subject to the Regulation ("Covered Transfer").

**Error Resolution**

In the case of errors or questions about EFT transactions, call or write Fidelity using the Contact information listed below, promptly. You must also call or write Fidelity if you think your statement is wrong or if you need more information about an EFT on the statement. **Fidelity must hear from you no later than 60 days after Fidelity sent the FIRST statement on which the problem or error appeared.** You will need to:

- Tell Fidelity your name and account number.
- Describe the error or the Covered Transfer that you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.
- Tell Fidelity the dollar amount of the suspected error.

If you notify Fidelity orally, Fidelity may require that you send your complaint or question in writing within ten (10) business days. Fidelity will tell you the results of its investigation within ten (10) business days after Fidelity hears from you and will correct any error promptly. If Fidelity needs more time, however, it may take up to forty-five (45) days to investigate your complaint or question. If Fidelity decides to do this, it will credit your account within 10 business days for the amount that you think is in error, so that you will have the use of the money during the time it takes Fidelity to complete its investigation. If Fidelity asks you to put your request or question in writing and it does not receive it within 10 business days, Fidelity may not credit your account. For new accounts, point of sale or foreign initiated transactions, we may take up to ninety (90) days to investigate your complaint or question. For new accounts, we may take up to 20 days to credit your account for the amount you think is in error. If Fidelity decides that there was no error, Fidelity will send you a written explanation within three business days after Fidelity finishes the investigation. You may ask for copies of the documents that Fidelity used in the investigation.

## Your 2010 Fidelity Investment Report

Your year-end Fidelity Investment Report summarizes activity in your Fidelity account(s) for the past year and may help you assess whether your investments still suit your needs. **This is not a tax form. Do not use it for tax reporting purposes.**

Under separate cover you should receive the following tax forms if you had specific types of activity in your account(s):

- Form 1099-DIV if you own a non-retirement account and received dividends, capital gain distributions, or other reportable distributions;
- Form 1099-B if you own a non-retirement account and redeemed or exchanged shares of a stock or bond mutual fund, or if you sold individual securities;
- Form 1099-INT if you own a non-retirement account and received taxable interest payments;
- Form 1099-OID if you own a non-retirement account and held certain individual bonds originally issued at a discount;
- Form 1099-MISC if you received royalty payments, certain substitute payments, such as those in lieu of dividends and tax-exempt interest, or other income such as certain credit adjustments, prizes, awards, etc.;
- Form 1099-R if you took a distribution from a retirement account or recharacterized an IRA contribution;
- Form 1099-SA if you own a Fidelity HSA® and you took a distribution;

## Your Asset Allocation

Asset allocation is a method of diversifying your investments among asset classes (e.g., stocks, bonds, short-term instruments). We believe that you should use asset allocation principles to create a portfolio that helps meet your needs and that you should review your portfolio of investments at least once a year to help you decide if it still suits your needs.

**Current Allocation** To help you determine your current asset allocation, we are providing a snapshot of your Fidelity asset mix. We sorted your Fidelity holdings into four asset categories: Stocks, Bonds, Short-Term Instruments, and Non-Classified. The following table summarizes the representation of individual holdings in your asset allocation pie chart:

ASSET CATEGORY	TYPES OF INVESTMENTS
Stocks	<ul style="list-style-type: none"><li>• Fidelity and non-Fidelity funds that invest primarily in stocks</li><li>• Individual stocks</li><li>• American Depositary Receipts (ADRs)</li></ul>
Bonds	<ul style="list-style-type: none"><li>• Fidelity and non-Fidelity funds that invest primarily in bonds</li><li>• Individual bonds with at least 1 year to maturity</li><li>• CDs with at least 1 year to maturity</li></ul>
Short-Term Instruments	<ul style="list-style-type: none"><li>• Fidelity and non-Fidelity money market funds</li><li>• Bankers Acceptances and Commercial Paper</li><li>• CDs with less than 1 year until maturity</li><li>• Individual bonds with less than 1 year until maturity</li><li>• FDIC Insured Cash (Core)</li></ul>
Non-Classified	<ul style="list-style-type: none"><li>• Non-Fidelity funds not classified as primarily investing in one asset class (stock, bond, or short-term). Included in this group are convertible securities funds, balanced income funds, flexible portfolio funds, and balanced funds.</li><li>• Non-Fidelity funds not classified as stock, bond, or short-term at the time we generated this report</li><li>• Precious metals (bullion, coins)</li><li>• Options</li><li>• Warrants and Rights</li><li>• REITs, UITs, and Limited Partnerships</li></ul>

Some Fidelity mutual funds ("blended funds") invest a significant amount of their portfolios in more than one asset class. The following funds are apportioned across asset classes based on their neutral mix, which represents the way the Funds' investments will generally be allocated. This mix may vary based on the current outlook for different markets. If you own any of the following funds, as of August 31, 2010, your assets in the fund were allocated as follows:

Fidelity Asset Manager® 20%	20% stocks, 54% bonds, 26% short-term
Fidelity Asset Manager® 30%	30% stocks, 53% bonds, 16% short-term
Fidelity Asset Manager® 40%	40% stocks, 48% bonds, 12% short-term

Fidelity Freedom Funds and Income Replacement Funds are managed by Strategic Advisers, Inc., a registered investment adviser and a Fidelity Investments Company. Lipper, Inc., categorizes non-Fidelity funds into their broad asset allocation categories: stock, bond, short-term and non-classified. This is one way of classifying your Fidelity holdings; some investors may choose to use their own classifications when evaluating their asset allocation. Asset allocation percentages are rounded to the nearest whole number, and may not sum to 100%. The funds listed on this page do not include any blended funds launched after August 31, 2010. If you own one of these new funds, your assets will be allocated as of the latest available data.

**Is Your Asset Allocation Right for You?** To determine the asset allocation strategy that may be right for you, consider your current financial situation, specific investment goals, time frame, and personal tolerance for risk. As your goals and needs change over time, you should adjust your plan accordingly. Fidelity has a number of tools to help you determine the allocation that may best match your goals. Please visit **Fidelity.com** or call a Fidelity representative if you would like this information. ## Features of Your Investment Report

### 2010 Changes In Portfolio Value and Account Summary

A summary of activity in your portfolio and in each of your accounts for 2010.

### 2010 Income Summary

This section may not reflect all taxable income received in your account. Certain items not included here may also be taxable to you. For example, *Net Adjustments* in the *Account Summary* section may include other taxable income. Dividend amounts reported on your account statements may not match this Report. Your statements report dividends when they are posted to your account. Unless otherwise indicated, this Report follows the IRS reporting requirements for Form 1099-DIV which require that mutual fund distributions declared in Oct, Nov or Dec and paid by Jan 31 of the following year are taxable based on the record date, not the date paid. Income generated by other types of investments is usually taxable in the year paid, not in the year declared.

Fidelity classifies all long-term capital gain distributions as "*long-term*" *cap gain* on this Report. This may not be appropriate for tax reporting purposes. Refer to your Form 1099-DIV when reporting capital gain distributions on your tax return.

Sometimes dividends, foreign taxes paid and other distributions are later reclassified or adjusted. If such changes are received by 12/31, then the *Income Summary* should reflect them. If they occur after 12/31, they will not be reflected.

Interest income paid by investments in municipal bonds, municipal bond funds, and municipal money market funds is generally "tax-exempt". Tax-exempt refers to the tax treatment at the federal level; this income may or may not be tax-exempt at the state/local level. In addition, a portion of this income may be subject to the federal alternative minimum tax. "Tax-deferred" income includes earnings on investments in tax-deferred accounts such as IRAs, which are not usually taxed until you take withdrawals. "Tax-free income" includes earnings on investments in a Roth IRA, which are not taxed at the federal level upon withdrawal provided

certain requirements are met.

**Contributions/Distributions Made in 2010** This is a summary of annual Traditional IRA, Roth IRA, Rollover IRA, SIMPLE-IRA, Health Savings Account, non-prototype retirement plan contributions and taxable and non-taxable retirement distributions for 2010. IRA assets converted to a Roth IRA are included in distributions. IRA recharacterizations are not reflected in this section.

**Holdings as of December 31, 2010** This section reports your holdings as of December 31, 2010, as well as income earned on these holdings throughout the year. If one of your holdings produced income and you sold the holding before December 31, then the line "Total income earned on positions no longer held" appears in the Holdings section. For ease of reading, we rounded the "Percentage of Holdings" to the nearest whole number.

**Cost Basis Information** Estimated cost basis information reported may not reflect all adjustments necessary for tax reporting. Taxpayers should verify such information when calculating reportable gain or loss from a sale, redemption, or exchange. Fidelity does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of information taxpayers may be required to report. Fidelity makes no warranties with respect to, and specifically disclaims, any liability arising out of a customer's use of, or any tax position taken in reliance upon, such information. Unless otherwise specified, Fidelity determines cost basis at the time of sale based on the average cost-single category (ACSC) method for open-end mutual funds and the first-in, first-out (FIFO) method for all other securities. See your year-end tax reporting package and account statements for more details on how Fidelity estimates cost basis information and makes certain adjustments thereto. Consult your tax advisor for further information.

**Cost** Fidelity provides purchase cost information for securities held in retirement accounts. Such information may be adjusted for certain transactions and does not reflect reinvestments of dividends or capital gains. Fidelity reports transaction profit or loss information when securities are sold within a retirement account. Transaction profit or loss is calculated by subtracting purchase cost from sales proceeds using the FIFO method if shares were purchased at different times or prices.

## Additional Information About Your Investment Report

**Information About Mutual Funds and Their Performance** An investment in a money market is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund. Before investing, consider the funds' investment objectives, risks, charges and expenses. Contact Fidelity for a prospectus containing this information. Read it carefully. Performance data shown represents past performance and is no guarantee of future results. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Current performance may be higher or lower than that quoted. Visit

**Fidelity.com/performance** for most recent month-end performance. Each fund reserves the right to terminate or modify its exchange privilege in the future. In addition to sales loads and 12b-1 fees described in the prospectus, FBS or NFS receives other compensation in connection with the purchase and/or the on-going maintenance of positions in certain mutual fund shares and other investment products in your brokerage account. This additional compensation may be paid by the mutual fund or other investment product, its investment advisor or one of its affiliates. Additional information about the source(s) and amount(s) of compensation as well as other remuneration received by FBS or NFS will be furnished to you upon written request. At the time you purchase shares of a no-load fund, those shares will be assigned either a transaction fee (TF) or no transaction fee (NTF) status. When you subsequently sell those shares, any applicable fees will be assessed based on the status assigned to the shares at the time of purchase.

**Assets Separate from Your Brokerage Account** Only securities in the margin portion of your brokerage account contribute to margin and maintenance requirements. Other assets, which may be reported on your statement, in insurance products that are distributed by FBS and Fidelity Insurance Agency, Inc. and mutual fund only accounts held directly with the fund (Fidelity Mutual Fund Accounts) are not carried by NFS, not covered by the Securities Investor Protection Corporation (SIPC) and do not count toward your margin and maintenance requirements. Assets held by Portfolio Advisory Services (PAS) are carried by NFS and are covered by SIPC but do not contribute toward your margin and maintenance requirements.

**Customer Free Credit Balance** You are entitled to your free credit balance in your brokerage account subject to open commitments in your cash accounts. Free credit balances are not segregated and may be used in NFS's business in accordance with federal securities law. There is no free credit balance arrangement in a retirement account or health savings account (HSA).

**Short Account Balances** Securities sold short are held in a segregated short account. These securities are marked-to-market, and any increase or decrease from the short sale price is transferred weekly to your margin account. Fidelity represents your short account balance as of the last weekly mark-to-market, not as of the statement end date. There is no margin arrangement in retirement accounts including non-prototype retirement accounts.

**Information about Your Option Transactions** Each transaction confirmation previously delivered to you contains full information about commissions and other charges. Assignments of American and European-style options are allocated among customer short positions pursuant to random allocation procedure, description is available upon request. Short positions in American-style options are liable for assignment any time. The writer of a European-style option is subject to exercise assignment only during the exercise period. Contact a Fidelity representative for more information.

**Price Information/Total Market Value** The Total Market Value has been calculated out to 9 decimal places; however, the individual unit price is displayed in 5 decimal places. The Total Market Value represents prices obtained from various sources, may be impacted by the frequency with which such prices are reported and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market

quotes, but when such quotes are not available the pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed income securities, may be based on certain minimum principal amounts (e.g. \$1 million) and may not reflect all of the factors that affect the value of the security, including liquidity risk. The prices provided are not firm bids or offers. Certain securities may reflect N/A or unavailable where the price for such security is generally not available from a pricing source. The Market Value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value at which the security may be sold or purchased based on various market factors. The sale or redemption of any fixed income security prior to maturity may result in a substantial gain or loss. Fidelity carries certificates of deposits (CDs) at their face value. A penalty may apply to the early withdrawal of a CD. You may sell CDs in the secondary market subject to market conditions. You should always request a current valuation for your securities prior to making a financial decision or placing an order. In executing orders on the Floor of the NYSE, the floor broker may permit the specialist to trade on parity with the order for some or all of the executions associated with filling that order, where such permission would not be inconsistent with the brokers best execution obligations. Individual securities trades placed for your Fidelity Personalized Portfolios account are completed on an agency basis by FBS.

("A") Alternative Investments - Investments such as direct participation program securities (e.g., partnerships, limited liability companies, and real estate investment trusts which are not listed on any exchange), commodity pools, private equity, private debt and hedge funds are generally illiquid investments and their current values may be different from the purchase price. Unless otherwise indicated, the values shown in this statement for such investments have been provided by the management, administrator or sponsor of each program or a third-party vendor without independent verification by Fidelity Brokerage Services (FBS) and represent their estimate of the value of the investor's participation in the program, as of a date no greater than 18 months from the date of this statement. Therefore, the estimated values shown herein may not necessarily reflect actual market values or be realized upon liquidation. If an estimated value is not provided, valuation information is not available.

Securities in accounts carried by National Financial Services LLC ("NFS"), a Fidelity Investments company, are protected in accordance with the Securities Investor Protection Corporation ("SIPC") up to \$500,000 (including cash claims limited to \$250,000). For details or to request an SIPC brochure, please see [www.sipc.org](http://www.sipc.org) or call 202-371-8300. NFS has arranged for additional protection for cash and covered securities to supplement its SIPC coverage. Neither coverage protects against a decline in the market value of securities. Customer inquiries and comments may be directed to the phone number listed on your report or mailed to: Fidelity Investments, Client Services, P.O. Box 770001, Cincinnati, OH 45277-0045.
